The training will consist off:

1. The duties of the COSS
2. Introduction to Lookout/Site Warden
3. Lookout/Site Warden's equipment
4. Duties of the Site Warden
5. Duties of the Lookout
6. Duties of the On-Track Plant Lookout
7. Lookout Operated Warning System (LOWS)
8. Arrangements when Pee Wee equipment is employed (optional)
9. Arrangements when Kango tamping equipment is employed (optional)
10. Theory assessment
11. Practical/Verbal Assessment

The maximum number of delegates for this course is 8 for Lookout/Site Warden only

Objective

At the end of the course delegates will be able to:

1. Carry out the duties of Lookout/Site Warden to the standard of competence laid down in the theory and practical assessments.

Competence

The training will be followed by theory and practical assessments. Results will be forwarded by the training provider to the NCCA for Sentinel Track Safety Cards to be issued.

Entry Qualifications

Applicants for Lookout/Site Warden training must hold a valid Sentinel Track Safety Card (PTS) and meet the required medical standards for persons detailed in Network Rail Specification NR/L2/CTM/021. It is also required that the delegates comply with the requirements of NR/L1/OHS/051 – Drugs and Alcohol. The delegate's suitability to attend the course and medical must be assessed by the sponsor of the person concerned.
