

Small Tools & Plant Courses

Course Aim

To train staff in the safe use and legislation of small tools and plant

The courses consist of

1. Knowledge of the legislation regarding the use of small tools/plant, (PUWER, HASAWA, Abrasive Wheels.)
2. Familiarisation with Specific tools
3. Training in the safe use of the small tools and plant used
4. Practical experience in the use of small tools/plant
5. Practical assessment
6. Theory assessment

The maximum number of delegates is 8.

The duration of the course is dependant on the number of small tools/plant requiring training. We offer training in a number of small tools/plant including-

- Angle Grinder
- Hand Drills/Impact Wrench
- Magnetic Drills
- Hand held compression tools
- Stihl Saw
- Generator
- Rail Drills
- Cembre & Glenair Pull Thru

This list is not exhaustive please enquire with your requirements.

Objective

At the end of the course the delegates will be able to use small tools & plant using the correct procedures and within legislation.

Competence

Successful delegates will receive an Aspire rail competency card.

Entry Qualifications

Delegates must hold a valid Sentinel Track Safety Card (PTS). They must meet the required medical standards for persons detailed in Network Rail Specification NR/L2/CTM/021. It is also required the delegates comply with the requirements of NR/L1/OHS/051-Drugs and Alcohol. The delegates suitability to attend the course must be assessed by the sponsor of the person concerned.
